Michael Doering

Research interests

- Freshwater ecology
- Ecosystem properties and processes in riverine floodplains
- Indicator development for optimal ecological discharge
- Floodplain development and human impacts (Hydro power production)
- Spatial analysis of floodplains using GIS and remote sensing techniques

Current projects

EU InterReg project "AlpWaterScarce - Risk prevention of water scarcity in the Alpine area"
www.alpwaterscarce.eu

Curriculum vitae

Since 4/2009	Postdoc/research scientist , Department of Aquatic Ecology ECO, EAWAG, Switzerland Coordinator , Work package "Optimal ecological discharge" integrated in the EU InterReg project "AlpWaterScarce"
07/2007-03/2009	Risk Analyst , Swiss Reinsurance Company Ltd, SwissRe, Switzerland
02/2007-06/2007	Postdoc , Department of Aquatic Ecology ECO, EAWAG, Switzerland
02/2007	Dr. sc. ETH Zürich
01/2003-01/2007	PhD student in environmental sciences, Department of Aquatic Ecology ECO, EAWAG and ETHZ, Switzerland
08/2002-12/2002	GIS specialist , Concepta GmbH, Germany
08/2002	Diplom Geograph , Ruhr University of Bochum, Germany
04/2001-04/2002	Diploma thesis , Ruhr University of Bochum, Germany and EAWAG Switzerland
	Studies of Geography , Ruhr University of Bochum, Germany Major: Geoecology, Spatial information analysis (GIS) Minor: Zoology, Botany, Geobotany, Geology
10/1995-07/2002
